DIRECTORS' REVIEW

The Directors of **Artistic Denim Mills Limited** are pleased to present to the shareholders the Directors' Review Report of your Company together with the un-audited condensed interim financial statements of the Company for the nine months period ended March 31, 2023.

PERIOD UNDER REVIEW

Comparative financial results for the current period and that of the corresponding period last year are as follows:

	March 31, 2023 Rs. in ('000')	March 31, 2022 Rs. in ('000')
Sales - net	12,469,373	12,059,238
Gross profit	2,039,090	1,175,152
Finance costs	614,198	306,750
Net profit	817,509	357,238
EPS (Rs. per share)	9.73	4.25

Despite substantial macro-economic challenges, during the first nine months of the ongoing financial year, your Company registered net sales of Rs.12,469 million, which represents a 3.40% increase in top-line performance when compared to the corresponding period last year.

Gross profit increased from Rs. 1,175 million (9.74%) to Rs. 2,039 million (16.35%) when compared to the nine months period under review. The prime reasons for increase in gross margin were devaluation of Pakistan Rupee and effective cost controls.

Finance costs increased to Rs. 614 million as compared to Rs. 307 million for the corresponding period of last year, which was due to steep rise in interest rates and increased borrowing due to increased working capital requirements.

As a result of the above, your Company ended the nine months period with a net profit of Rs. 818 million compared to a net profit of Rs. 357 million in the same period last year. This represents significant increase in profitability, up by 128.84%. This translated into Earnings per Share (EPS) of Rs. 9.73 as compared to Earnings per Share of Rs. 4.25 during the corresponding period.

FUTURE OUTLOOK

The textile industry in Pakistan is currently facing a severe economic crisis due to a confluence of factors, including poor economic management, political instability, natural disasters, elevated inflation, increasing interest rate, high energy prices, and immediate foreign debt payment obligations. Following the import constraints and devaluation of local currency against dollar, the exports of Pakistan have plummeted by 10% during nine months through July 2022 to March 2023, according to Pakistan Bureau of Statistics (PBS). As per the data, exports of the country slipped to \$21.05 billion during the first nine months of the current fiscal year as compared with \$23.35 billion in the same period of the last fiscal year.

Pakistan's export market which is, by and large, in US and Europe is facing an economic slowdown and declining global trade since July 2022 and their low purchasing power due to high inflation has caused a decrease in demand for local products in the export markets. We expect that consumption may remain weak in the short term in these regions due to inflation outpacing nominal wage growth.

Despite the foregoing, under the Board's leadership, the Management of your Company is making all efforts to steer the organization in the right direction. As per our strategy, we will maintain operational excellence and will continue to provide reliable, high quality products to our esteemed customers. Your Company remains focused on sustaining innovations through strong design and product development, while also making concerted efforts to improve performance through efficiency and effective cost control initiative. However, with rising cost pressures, maintaining market share as well as ensuring reasonable margins will be a challenge.

ACKNOWLEDGEMENTS

The Board of Directors of the Company would like to thank the financial institutions, shareholders, suppliers and customers who have been associated with the Company for their continuing support and cooperation. The Board of Directors would also like to acknowledge the hard work put in by all the employees of the Company.

On behalf of the BOARD of DIRECTORS
